

## **KULKONI Quality Assurance Program**

Kulkoni, Inc. recognizes the need for continuous improvement as a function of Quality in order to succeed in international markets. Hence, Kulkoni, Inc. has implemented into its professional business activities, a Quality System which utilizes the guidelines set forth in ANSI/ISO/ASQC 9003-94, A.P.I. Q1 Fifth Edition as applicable, industry recognized standards and specifications, and all other agreed upon customer requirements.

This Quality System was collectively developed by Kulkoni management, and introduced in March of 1997. We feel that this program will assure that our customers will receive products that are in compliance with all applicable specifications and requirements.

Kulkoni, Inc. is a distributor of imported and domestically manufactured and fabricated products. The products available in this catalog are covered by a national, international, or industry recognized standard or specification.

Kulkoni, Inc. is committed to satisfying our customers' current and future needs, and looks forward to a continuing professional business relationship.
